Specifics of Recruitment	
<p>Introduction:</p> <p>The Global Green Growth Institute (GGGI), based in Seoul is an intergovernmental organization founded to support and promote a model of economic growth known as "green growth", which targets key aspects of economic performance such as poverty reduction, job creation, social inclusion, and environmental sustainability. GGGI works with countries around the world, building their capacity and working collaboratively on green growth policies that can impact the lives of millions. The organization partners with countries, multilateral institutions, government bodies, and private sector to help build economies that grow strongly and are more efficient and sustainable in the use of natural resources, less carbon intensive, and more resilient to climate change.</p> <p>GGGI has a diverse portfolio of programs in developing countries around the world. These in-country programs, together with global products and services, focus on delivering results through an integrated approach of evidence-based green growth planning and implementation aligned to countries' development priorities. The organization also focuses on knowledge development and management activities which build a strong theoretical and empirical basis for green growth, while providing concrete options and guidance for policymakers; as well as building the conditions for public and private green infrastructure investments.</p> <p>GGGI established its country program in Myanmar in March 2017 and is hosted by the Environmental Conservation Department within the Ministry of Natural Resources and Environmental Conservation (MONREC) in Nay Pyi Taw. GGGI and Environmental Conservation Department will jointly implement GCF funded a 2-years Green Cities Readiness Project in 4 cities. The objective of the project is to support achievement of national policy priorities for adaptation and mitigation to climate change and increase national capacities to manage investments that will assist the Government's achievement of its INDC (and future NDC) commitments.</p>	

Position Summary

The Consultant will provide technical support to Environmental Conservation Department and Global Green Growth Institute in implementation of the GCF funded Green Cities Readiness Project. The objectives of the project are to develop Green Cities investment project pipelines and nominate GCF National Access Entity.

Under the overall guidance of Country Representative and close supervision of Project Lead, the Consultant will be responsible for undertaking policy assessment and stakeholder analysis to prepare reports relevant to the areas of public-private roles in sustainable transport and transport policy in cities. The Consultant will develop awareness raising materials for the private sector and, also organize and lead workshops in four project cities.

This consultant position is deliverable based over the project duration of 2 years and will provide technical support to start up implementation of GCF funded Green Cities Readiness project in four cities in Myanmar.

Objectives/Purpose of the Assignment:

The purpose of the assignments is;

- Organize and lead Project Inception/ Awareness Raising Workshop on Green Cities Readiness Project and develop workshop reports.
- Assess Myanmar's international commitments (INDC and SDGs) and existing national, city and sectoral policies and strategies to identify priority areas for the development of investment plans in four cities, as these relate to sustainable transport and transport policy, to be identified in consultation with the Government. The assessment will include gender and social inclusion aspects.
- Assess the roles of key government actors at the national and city level and other relevant stakeholders in the development of the green cities investment plans and priorities for four cities (drawing on lessons from ADB, JICA, UN-Habitat, KOICA, AfD, Rockefeller), as these relate to sustainable transport and transport policy, integrating key climate change, gender and social inclusion objectives identified in Myanmar's draft National Conservation Policy, Green Economy Strategy Action Plans, Waste Management Policy, and Climate Change Strategy, Myanmar Sustainable Development Plan and any other national/ sub-national policies.
- Raise awareness of the private sector to access GCF to support the government and engage with them in identifying opportunities and draw on private sector and donor experiences in addressing barriers for private sector investments in support of the city investment plans' implementation as these relate to sustainable transport and transport policy in the urban context.
- Engage stakeholders from the public and private sector, seeking equal representation of women and including relevant groups, in consultation for the development of the green cities investment plans in four cities as these relate to sustainable transport and transport policy.

Note: all data collection and outputs from this assignment should be the property of GGGI.

Scope of Work:

Under the overall supervision of Country Representative and direct supervision and guidance of the Green Cities Project Lead, the Consultant will support implementation of GGGI's Green Cities project activities and delivery of specific duties and responsibilities:

- Deliverable 1: Development of draft analytical reports, PPTs and awareness raising materials as well as organizing workshops and preparing reports: Policy assessment report (for each city), stakeholder analysis report (for each city) including meeting note and private sector awareness materials drafted in English with 2 pages of executive summary in Burmese, and PPTs for these documents drafted in both English and Burmese as these relate to sustainable transport and transport policy. Project Inception Workshop in Nay Pyi Taw participated to facilitate working group discussion and workshop report developed as these relate to sustainable transport and transport policy. Workshops in 4 cities organized to discuss draft policy assessment report, stakeholder analysis report and private sector awareness raising materials, working group discussion facilitated and workshop report developed as these relate to sustainable transport and transport policy.
- Deliverable 2: Finalization of analytical reports and awareness raising materials as well as organizing workshops and preparing reports: Policy assessment report (for each city), stakeholder analysis report (for each city) including meeting note and private sector awareness materials drafted in English with 2 pages of executive summary in Burmese, and PPTs for these documents finalized in both English and Burmese as these relate to sustainable transport and transport policy. Seminar in Nay Pyi Taw facilitated to discuss investment pipeline development, final policy assessment and stakeholder analysis reports, and seminar report developed as these relate to sustainable transport and transport policy. Workshops in 4 cities organized to discuss Cities investment plan and finalize private sector awareness raising materials, working group discussion facilitated and report developed as these relate to sustainable transport and transport policy.
- Deliverable 3: Organizing workshops and developing reports: Workshops in 4 cities organized to finalize Cities investment plan, working group discussion facilitated and workshop report developed as these relate to sustainable transport and transport policy.
